At the same time, many people are trying to change their lives, but just cant seem to figure out The Law of Attraction well enough to make it happen. Why is this? Why is it so easy for some and not others?When author Jenny Loveless began to dig deeper into this question, she found that most of the informationout there is based on science and scientifically backed theories". Thats great. Its definitely information we need to know, however, we need to know how to take this information and apply it to our own lives. How do we really know if were doing it right? Wheres all the in-between information?This is where The Secret Power of The Universe comes in. Just like we see with adolescents in school, everyone learns in a different manner. Ms. Loveless has found that by getting down on a more intimate level in her explanations has helped

immensely in her teachings of the LOA. "An amazing book. It actually brought me to tears, and not just once! As someone who has read quite a few books on this topic recently, I can't praise this book enough.
