Description :

Prsentation de l'diteurThere are so many books on the subject of spirit communication, published over the last 150 years, that we might seriously ask why do we have yet another one from David Spangler? Here is why: David writes from direct experience, not theory. Significantly he has by-passed all the usual spiritualist and New Age dogma repeated in countless books and courses and offers us instead a direct and clear approach. The subject is presented in the only truly effective way, by comparing the inner spiritual realms to our interactions in the mundane world. Thus we have a text filled with inspiration, insights, and inestimably

valuable doses of common sense. I recommend this book highly, and will be encouraging my own students to study it. R J Stewart, author of Merlin: The Prophetic Vision and Mystic Life, The Sphere of Art, The Dreampower Tarot, and many others
